

This office is unable to evaluate foreign transcripts for course equivalency. Therefore, in addition to submitting the application and nonrefundable fee, you will need to forward your **official transcripts** to a commercial credential evaluation service such as is listed below. These services operate for a fee based on the extent of education evaluated. Request that a letter be forwarded to this office stating whether or not your degree is equivalent to a bachelor's degree offered by a United States college or university. The evaluation needs to include the number of US equivalent college level semester units completed in general inorganic chemistry, organic chemistry, general physics, general biology, general microbiology, and calculus or college algebra (third-year algebra). Courses designed for non-science majors should not be listed. In addition, the evaluation should indicate whether or not the science courses included a laboratory portion. (**NOTE:** This list is supplied for informational purposes only and in no way implies formal recognition or approval by the Environmental Health Division of the agencies listed or their advisory interpretations.)
